Developing Care Pathways: The Handbook Kathryn de Luc

The relationship between poverty and child health has always been assumed but this book demonstrates how the evidence of history and of other societies establishes a causal link. The practical implications in health and social policy are presented in the context of child care services, together with some innovative approaches to future development. This is a book for professionals in medicine, nursing and the social services who are involved in research and the practical issues of delivering a modern health care service to disadvantaged children.
