Crystal Conquest, book II in the Crystal Series, builds on the exciting storyline and characters you first met in Crystal Deception. While Crystal Conquest stands on its own as a great read, book I, Crystal Deception, delivers a solid story foundation and is the recommended starting point for new readers.

Aliens fire the first shots in their invasion of Earth, and that's when Criss realizes he's outmatched. He spent years preparing for this moment, working with his human leadership to develop weapons and refine strategies. Created with the thinking and reasoning ability of a thousand people, Criss never expected the invaders to arrive with an artificial intelligence that dwarfed his capabilities, nor did he expect to be the target of their vengeance. When he squares off against the alien goliath to protect the world, defeat is certain. Or is it? Together with Sid, Cheryl, and Juice—a covert operative, Fleet officer, and crystal scientist—Criss struggles to defeat the aggressors and save civilization from annihilation. But can he outsmart the alien intelligence in a titanic battle of wits? And can he do so before Earth lies in ruins?
