Antarktos Rising - A Novel Jeremy Robinson

A phenomenon known as crustal displacement shifts the Earth's crust, repositioning continents and causing countless deaths. In the wake of the global catastrophe, the world struggles to take care of its displaced billions. But Antarctica, freshly thawed and blooming, has emerged as a new hope. Rather than wage a world war no nation can endure, the leading nations devise a competition, a race to the center of Antarctica, with the three victors dividing the continent. It is within this race that Mirabelle Whitney, one of the few surviving experts on the continent, grouped with an American special forces unit, finds herself. But the dangers awaiting the team are far worse than feared; beyond the sour history of a torn family, beyond the nefarious intentions of their human enemies, beyond the ancient creatures reborn through anhydrobiosis-there are the Nephilim. The world races to claim a new continent, only to find it already taken.
