This is a high quality reproduction of the factory parts book known to collectors as the "Green Bible" of vintage Ford parts. It was written by Ford for the parts departments at their dealerships. You will find the original part numbers, which are still useful today because most parts vendors still use the original manufacturer's numbers to keep track of their parts. Use this book to make your search for parts both quicker and easier. The illustrations in the book will help you identify parts, and the exploded views can aid you with the assembly or disassembly of some parts of the vehicle. You will find parts for your entire vehicle except for the body, including: wheels, hubs, drums, brakes, front axle, steering gear, rear axle, coupling shaft, frame, muffler, springs, engine, transmission, clutch, radiator, fuel system, generator, battery, starting motor, distributor, ignition coil, lamps & wiring, fenders, hood, windshield wiper, shock absorbers, standard parts, bumpers, and accessories. You will also find specifications for and dimensions of most parts listed. Find out if the parts on your car and the parts you are buying are original and complete. Covers all Ford Model A & AA, V8 & 4-cylinder Cars, Pickup & Commercial Truck models, and even school buses. This manual works well as a model year interchange manual!!! There are exploded view illustrations throughout this 802 page book. Buy now for the best parts book for your vintage Ford.
