Pre-Removal Choctaw History: Exploring New Paths (The Civilization of the American Indian Series)

In the past two decades, new research and thinking have dramatically reshaped our understanding of Choctaw history before removal. Greg O'Brien brings together in a single volume ten groundbreaking essays that reveal where Choctaw history has been and where it is going.

Distinguished scholars James Taylor Carson, Patricia Galloway, and Clara Sue Kidwell join editor Greg O'Brien to present today's most important research, while Choctaw writer and filmmaker LeAnne Howe offers a vital counterpoint to conventional scholarly views. In a chronological survey of topics spanning the precontact era to the 1830s, essayists take stock of the great achievements in recent Choctaw ethnohistory.

Galloway explains the Choctaw civil war as an interethnic conflict. Carson reassesses the role of Chief Greenwood LeFlore. Kidwell explores the interaction of Choctaws and Christian missionaries. A new essay by O'Brien explores the role of Choctaws during the American Revolution as they decided whom to support and why. The previously unpublished proceedings of the 1786 Hopewell treaty reveal what that agreement meant to the Choctaws.

Taken together, these and other essays show how ethnohistorical approaches and the "new Indian history" have influenced modern Choctaw scholarship. No other recent collection focuses exclusively on the Choctaws, making *Pre-removal Choctaw History* an indispensable resource for scholars and students of American Indian history, ethnohistory, and anthropology.
