Curriculum Studies Handbook: The Next Moment

Curriculum Studies Handbook: The Next Moment

What comes after the reconceptualization of curriculum studies? What is the contribution of the next wave of curriculum scholars? Comprehensive and on the cutting edge, this *Handbook* speaks to these questions and extends the conversation on present and future directions in curriculum studies through the work of twenty-four newer scholars who explore, each in their own unique ways, the present moment in curriculum studies. To contextualize the work of this up-and-coming generation, each chapter is paired with a shorter response by a well-known scholar in the field, provoking an intra-/inter-generational exchange that illuminates both historical trajectories and upcoming moments. From theorizing at the crossroads of feminist thought and post-colonialism to new perspectives that include critical race, *currere*, queer southern studies, Black feminist cultural analysis, post-structural policy studies, spiritual ecology, and East-West international philosophies, present and future directions in the U.S. American field are revealed.
