**Challenging Problems in Geometry (Dover Books on Mathematics)** Alfred S. Posamentier, Charles T. Salkind

Designed for high school students and teachers with an interest in mathematical problem-solving, this volume offers a wealth of nonroutine problems in geometry that stimulate students to explore unfamiliar or little-known aspects of mathematics.

Included are nearly 200 problems dealing with congruence and parallelism, the Pythagorean theorem, circles, area relationships, Ptolemy and the cyclic quadrilateral, collinearity and concurrency, and many other subjects. Within each topic, the problems are arranged in approximate order of difficulty. Detailed solutions (as well as hints) are provided for all problems, and specific answers for most.

Invaluable as a supplement to a basic geometry textbook, this volume offers both further explorations on specific topics and practice in developing problem-solving techniques.

**From reader reviews:**

**Ruth Walker:**

This Challenging Problems in Geometry (Dover Books on Mathematics) book is not ordinary book, you have it then the world is in your hands. The benefit you receive by reading this book will be information inside this e-book incredible fresh, you will get details which is getting deeper you actually read a lot of information you will get. This kind of Challenging Problems in Geometry (Dover Books on Mathematics) without we recognize teach the one who studying it become critical in considering and analyzing. Don't become worry Challenging Problems in Geometry (Dover Books on Mathematics) can bring when you are and not make your bag space or bookshelves' come to be full because you can have it within your lovely laptop even telephone. This Challenging Problems in Geometry (Dover Books on Mathematics) having great arrangement in word as well as layout, so you will not really feel uninterested in reading.

**Christopher Barnes:**

Do you really one of the book lovers? If so, do you ever feeling doubt when you are in the book store? Make an effort to pick one book that you just dont know the inside because don't assess book by its handle may doesn't work is difficult job because you are afraid that the inside maybe not because fantastic as in the outside search likes. Maybe you answer can be Challenging Problems in Geometry (Dover Books on Mathematics) why because the great cover that make you consider about the content will not disappoint you. The inside or content is usually fantastic as the outside or maybe cover. Your reading 6th sense will directly show you to pick up this book.

**Marie Nitta:**

As a pupil exactly feel bored to reading. If their teacher asked them to go to the library as well as to make summary for some book, they are complained. Just minor students that has reading's soul or real their pastime. They just do what the instructor want, like asked to the library. They go to there but nothing reading critically. Any students feel that examining is not important, boring as well as can't see colorful photos on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this Challenging Problems in Geometry (Dover Books on Mathematics) can make you truly feel more interested to read.

**Gale Gibbs:**

A lot of people said that they feel bored stiff when they reading a guide. They are directly felt that when they get a half areas of the book. You can choose the particular book Challenging Problems in Geometry (Dover Books on Mathematics) to make your own personal reading is interesting. Your personal skill of reading ability is developing when you similar to reading. Try to choose straightforward book to make you enjoy you just read it and mingle the sensation about book and studying especially. It is to be 1st opinion for you to like

to start a book and read it. Beside that the guide Challenging Problems in Geometry (Dover Books on Mathematics) can to be your friend when you're sense alone and confuse using what must you're doing of the time.
