The Religious Roots of the Syrian Conflict: The Remaking of the Fertile Crescent (Twenty-first Century Perspectives on War, Peace, and Human Conflict) Mark Tomass

Exploring both the historical origins of Syria's religious sects and their present-day dominance of the Syrian social scene, *The Religious Roots of the Syrian Conflict* identifies these groups' distinct beliefs and relates how the actions of the religious authorities and political entrepreneurs acting on behalf of their particular sects expose them to sectarian violence, culminating in the dissolution of the nation-state. Mark Tomass employs ethnographic accounts used in anthropology and conceptual tools based in economics to describe the formation of sectarian groups, a multidisciplinary approach which details how the sects have consistently generated civil conflicts within the Fertile Crescent, both before and after the formation of the nation-states of Lebanon, Iraq, and Syria.
