Survival of the fittest. Can a society living in the Stone Age defeat unwanted visitors from a technologically advanced world?

When Alec's mom reports his math teacher for bullying, she has no idea what the consequences will be. Scared out of her mind, she decides to return to Bradapol to ask for help, knowing full well that this could lead to her execution.

Although Bradapol has never progressed past the Stone Age, they have learnt how to harness the natural elements through the Helper.

Alec's name is changed to Velvak, and he befriends Lokjab, a young wolf. With that, an ancient prophesy is fulfilled. With the help of Edno, Velvak discovers his own natural gifts and talents, and has to learn how to survive on his own in this harsh world.

When the Security Council discovers that someone from another world is plundering Bradapol's resources yet again, they decide to send Velvak to investigate. Trained warriors that were sent on previous occasions had simply disappeared. Does Velvak really stand a chance?
