Compiled from interviews, single black fathers discuss the relationships that brought them into fatherhood, and reflect on the factors that hinder their efforts when it comes to dating and relating to black women, co-parenting, and their current life status. Ending the Blame Game helps women get a glimpse into the minds of single black fathers from different backgrounds who desire to be in a cohesive family unit, and want to tell their side of the story.

Each of these 15 men tell their stories concerning:

- Fostering better communication and create an environment for healthy relationships
- Parenting with a lack of positive father figures
- Child support, divorce, and overall attitudes about the black male-female dynamic

Each chapter ends with analysis, tips and suggestions from experts regarding these and other relationship topics.
