## **Islands** Dan Sleigh

This novel of epic proportions from South Africa, set between 1650 and 1710, covers the first fifty years of the Dutch colony at the Cape of Good Hope. Beautifully rendered, this is a world and a time never before dealt with in fiction—a period when powerful colonizers took over the lands of Hottentot tribes, exposing aborigines for the first time to Western eyes and Western ways. Through the life stories of seven men—all involved with and defined in one way or another by Pieterella, the beautiful daughter of the first mixed marriage of the new colony—we gain an understanding of the vast historical forces at work.

Teeming with characters, rich with lived experience, gripping in its unexpected turns, *Islands* is a story of greed, power, war, courage, and international intrigue, at once a meticulously researched portrait of the age and a great adventure story.
